Assistant Recruiter Program (ARP)

The "Assistant Recruiter Program" enables CampusCareerCenter Client Services Managers to act as an "assistant recruiter" and conduct 100% of the candidate outreach on our client's behalf. The client Services Manager will initially consult with the recruiter to gain the knowledge they need to actively target/email candidates highlighting internships, jobs, events, etc. The only obligation is to review the results and update the Client Services Manager with new developments every 90 days so their efforts continue to be channeled effectively. With the "Assistant Recruiter Program", we do the work for you!

Social Networking

Employers can gain additional visibility with participation on any of CampusCareerCenter's Social Networks. We have built several active communities where students and professionals can communicate, network, and learn from each other. Our Employer members can post a dynamic profile featuring facility photos/videos and build relationships with candidates in a less restrictive setting than the traditional online job posting/application process.
